

SwoopFiber's Fiber Optic Construction is **UNDERWAY!**

SwoopFiber's Digital Revolution in Elmvale, Ontario From September 4, 2023, Elmvale will witness the dynamic presence of SwoopFiber teams, as we embark on our mission to elevate your digital experience. Our endeavour involves laying down state-of-the-art underground fiber connections, known as "Fiber drops", directly to your homes and businesses. This transformative upgrade is our gift to the community, with no associated costs. Only if residents or businesses wish to explore our premium services will there be any charges, and there's zero pressure to do so.

Our Construction Journey

Ground Surveys, Precise Locating, and Efficient Fiber Deployments

Why SwoopFiber?

Our network is a beacon of modern internet technology, harnessing the power of ultra-fine, transparent glass strands. These marvels transmit data at lightning speeds, revolutionizing how Elmvale communicates. With SwoopFiber, you're not just getting faster internet; you're future-proofing your connectivity. • Experience unparalleled 1Gbps speeds, both ways, redefining Elmvale's digital landscape.
